Profile

Software Engineer & Team Lead with 12+ years of frontend development expertise, currently leading Walmart's International Ad Tech Platform. Specialize in building high-performance web applications at scale while developing and managing engineering teams. Deep expertise in JavaScript and modern frontend technologies—React, TypeScript and Micro-Frontend architecture.

Skills

- **Languages & Core:** JavaScript, TypeScript, HTML5, CSS3
- **Frontend:** ReactJS, Redux, NextJS, React Native, Material UI, TanStack Query, Tailwind CSS
- **Backend:** NodeJS, ExpressJS, Fastify
- **DevOps:** Docker, Kubernetes, CI/CD, Git
- **Cloud:** AWS, GCP, Firebase
- **Tools:** Webpack, Vite, NPM, Jest

Experience

SENIOR SOFTWARE ENGINEER (TEAM LEAD) | WALMART GLOBAL TECH | MAY 2020 – PRESENT (5+ YEARS)

- I work as a Lead Frontend Engineer, where I design and create large-scale web applications using JavaScript. Currently building amazing products for Walmart International AdTech (<https://www.walmartconnect.com/display>)
- Built Walmart's Survey Insights application using ReactJS, Redux, and Amcharts. Developed reusable data visualization library (NPM), now used across Walmart teams including Luminate, reducing development time significantly.

LEAD SOFTWARE ENGINEER | ICF INTERNATIONAL | JAN 2015 – APRIL 2020 (5+ YEARS)

- Led Amway offshore team, building 100+ modular web components (PolymerJS) for Mybiz platform
- Designed REST APIs for business calculations using NodeJS and ExpressJS
- Scaled and managed engineering teams up to 15 developers
- Delivered JavaScript solutions for 8+ enterprise clients including McDonald's and Amway

Side Project

AI Image Cataloger | Demo: <https://bit.ly/4a7HZub> | GitHub: <https://bit.ly/4oRxW13>

AI tool for product image analysis (type, color, gender) using local LLMs via Ollama. Fully offline and free.

Education

- Udacity Nanodegree, Computer Software Engineering: **MAY 2020**
- Visvesvaraya Technological University: B.E., COMPUTER SCIENCE AND ENGINEERING: **AUG 2009 - JUN 2013**
